

IT'S TIME TO REDESIGN DEMENTIA CARE

Frustrated with your current dementia care programming?
Unsure about the best ways to prevent responsive behaviors in dementia?

At **The National Center for Montessori and Aging**, we will show you how to shift your view of dementia care and create an environment where people with dementia flourish — making things much easier for both them and YOU.

Montessori for Aging and Dementia, an innovative approach to care, enables individuals to care for themselves, others, and their community — bringing purpose and meaning to elders' lives, and increasing staff satisfaction significantly.

Don't miss this opportunity to learn from an international Montessori and dementia expert.

During this workshop you will:

- **Discover a powerful approach to dementia care** that will totally change your perspective on aging and dementia
- **Learn the first thing you should do to create a sense of community** between staff and residents
- **See how an engaging life enrichment program transforms the culture** of a long-term care center and ultimately frees up staff time dramatically
- **Learn the process for changing a ho-hum activity program** into a dynamic and engaging person-centered program that keeps people interested and has them coming back for more
- **Be able to implement a simple tool for helping people with cognitive impairment** participate in meaningful conversations
- **Identify the mistakes almost everyone unknowingly makes** in wayfinding and signage, leading to confusion and discord — and find out how to correct them
- **Develop the skills to effectively communicate with people with dementia**, so they easily understand what you are trying to convey

Individuals living in a Montessori community do as much for themselves and others as possible, rather than having things done to them or for them.

Our program content demonstrates how to meet the CMS regulations requiring that the care communities:

- Learn more about elders as a person, provide greater support for elder preferences, and give elders increased control and choice.
- Provide activity materials 24 hours a day.
- Provide training on dementia management.

Become Certified & Earn CEUs!

- ✓ This program meets the core educational requirement for the **Montessori Dementia Engagement Certification** and is **pre-approved for 12 CEUs** by the National Certification Council of Activity Professionals. 

- ✓ Course content is being offered for **1.2 American Speech-Language Hearing Association (ASHA) CEUs.**

- ✓ Approved by Maryland Board of Social Work Examiners for **11 professional, intermediate category 1 CEUs.**

WORKSHOP DETAILS

Registration: Only \$279.

All participants receive a Certificate of Completion at end of workshop.
